Palma, Son Espanyolet

Fully refurbished penthouse with an amazing all-encompassing view of the town, the mountains, and the Bay of Palma! The terrace is bathed in sunlight from dawn until dusk.

This really is a sun-filled paradise.

Stepping out of the front door, you enter a hallway with a guest WC and 1 bathroom to the left, both with amazing views. Proceeding straight ahead will place you in the well-lit, fully furnished kitchen, complete with a wine refrigerator.

Even if the aforementioned rooms have amazing views, you will most likely spend most of your time on the 75 m2 terrace.

This little outdoor kitchen has a roof, as does a portion of the outside space just outside the living room. The washing machine that is part of the purchase is situated here as well. There is enough room for a dining table, sun loungers, and a sofa group on the terrace with

or without a roof, and the view is amazing from anywhere on it!
